DESCRIBE THE PRESENT AND ORIGINAL (IF KNOWN) PHYSICAL APPEARANCE

One of a pair of C. 1840 houses which are transitional between a 2½ story and full 3 story house, this building is located in mid-block and has 2 bays.

There is an iron grilled cellar window to the left of the three concrete stairs which ascend to the entrance on the right. Between the two concrete stoops, is a brick planter shared with 876 Tyson Street. The six panel door has 2 upper panels of glass and is topped by a single pane transom. The first floor window and the two on the second floor are the same size and are 6-over-6 double hung. The third floor, squat, windows are also double hung, 2-over-2 windows (with horizontal mullions). All windows have brick cells and except for the one in the cellar are too narrow wood lintels.

A drain at the edge of the gently sloping roof approximates the appearance of a cornice. There is a concrete surfaced chimney to the left.
